10<sup>th</sup> Dec 2023

**LETTER TO THE PARENTS OF THE BOYS PRESENTLY IN CLASS IX and WHO WILL GO TO CLASS X AT THE END OF THIS YEAR 2023**

Dear Parents and Guardians,

Good morning to each one of you. Your children have completed the Final Examinations and are now eagerly awaiting their results, no matter how they have performed. We wish them luck and we hope they will be happy with the efforts they have put in.

I write to you expressing a concern I have with regard to your children. You see, your children are relatively free from 8<sup>th</sup> December till the 8<sup>th</sup> February of 2024. Incidentally, we intend to start classes for 9 & 10 by the 5<sup>th</sup> February 2024.

But I am seriously worried about the time in between! What are your plans for them? Are they going to keep in touch with their books? Or will they just drift along and wait for the school to start? You see dear parents, if they don't keep in touch with their Maths, Sciences, History and Geography, and indeed other subjects, they will have to start all over again in 2024. They would have forgotten the basics, especially in Maths, Physics, Chemistry and Bio.

I have a proposal for you. Those children who are interested may sign up for it. I was thinking of starting extra classes in Math, Sciences, History and Geography during the month of January and going right up till the month of February. We could start by the 8<sup>th</sup> January. I will arrange for the teachers to take classes according to a fixed time table which will be shared with you. I am also inviting some parents who are experts in the field to give additional help to our children so that at least they get a head start in their syllabus for 2024. This period from December till Feb is like the 'fallow ground' in agricultural terms. If our children leave their minds alone, untouched during this period, they will have to literally cover a lot of ground later on!

So, parents, I would like you to respond to this idea. Even if there are a few boys who are interested in this, I will go ahead and organize these classes for them. Please click on the link given below and submit the form as soon as possible. Thank you very much.

Please know that we are concerned about your children and we want to help them do well.

Thank you and God bless all.

*Br. Solomon Morris (Principal)*
